

Adopt cloud-based AI time capture and prebill workflow software.

- Drive revenue by automating activity capture and speeding the billing cycle.
- Increase lawyer productivity and satisfaction by reducing administrative overhead.
- Boost client satisfaction and improve realisation by integrating outside counsel guideline [OCG] compliance directly into time entry processes.
- Achieve measurable ROI with faster revenue cycles and reduced write-offs.
- Consult with time management experts skilled in executing time software implementation and integration projects.
- Migrate legacy or on-premises time entry to a modern, cloud-based system with web and mobile user access.
- Enhance firm revenue lifecycle management by improving prebill creation, distribution, review, and finalisation.

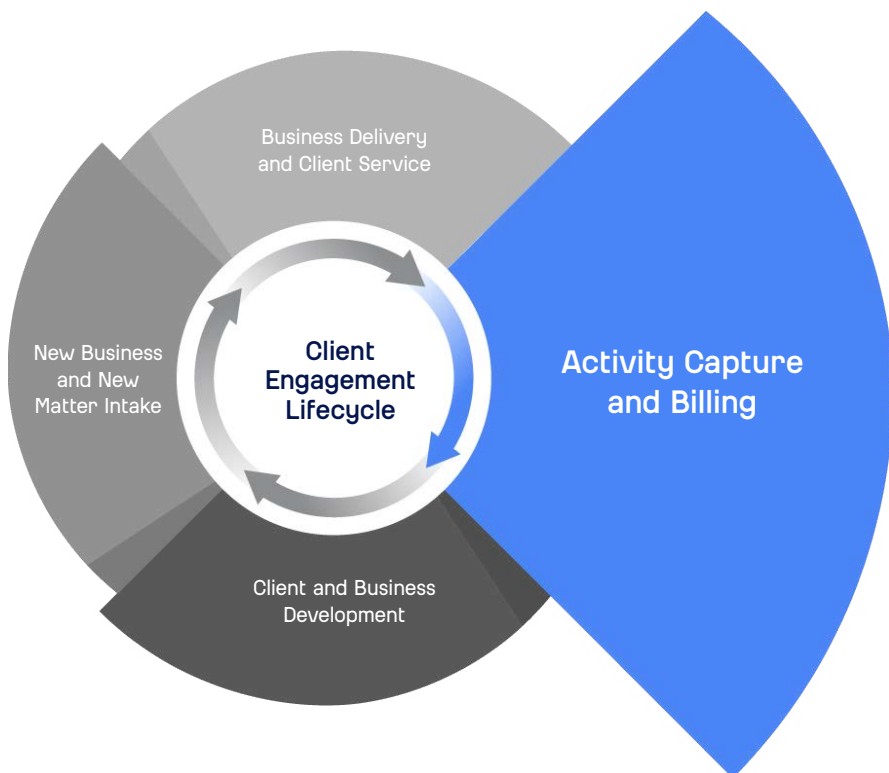

Why Epiq Legal Solutions

Experience the advantage of solutions from a partner specialising in legal.

Drive decisions with AI solutions that combine people, process, technology, and data.

Over
200
successful Intapp Time
projects executed

Intapp Time

Automate time recording, activity capture, and billing compliance.

Intapp Billstream

Manage proforma and prebill creation, review, and delivery.

Unique Support for Intapp Time and Intapp Billstream Software Projects

Conduct a thorough financial system and data architecture review.

Document existing time entry and billing practices, identifying desired inherited practices and opportunities for enhancement.

Craft and execute product adoption plans aligned with firm objectives, IT architecture, and timelines.

Address change management and user acceptance through tailored testing, training, and adoption consulting.

Digitise and modernise prebill management with Intapp Billstream implementation.

Engage using a fixed fee, time and materials, or hybrid project model.

Upgrade Intapp Time on-premises or migrate third-party tools to Intapp Time Cloud.

Differentiators

- Unique pre-project assessment consulting, including time application, process, data, and lifecycle analysis.
- Support ongoing success and system improvements with responsive managed services.
- Extensive knowledge of Intapp products, best practices, data integration requirements, and change management.
- Tailored system administrator and end-user training.
- Fast, efficient cloud migration for on-premises clients.
- Deliver ongoing managed service product support, compliance enhancement, Time AI adoption, and training after go-live.
- Experts in all Intapp platform solutions to integrate and address related firm needs, including client compliance, time management practices, and business development.
