

Advance legal work by unifying AI, legal systems, and data.

Work seamlessly across legal data, applications, and workflows by connecting preferred AI assistants with Epiq applications through the Epiq Model Context Protocol [MCP]. Accelerate tasks while preserving data governance, oversight, and control that sensitive legal information requires.

Increase Productivity

Link AI assistants with Epiq Discover™, Epiq AI™, Epiq Narrate™, and Epiq Access, allowing legal professionals to surface facts, documents, and case details faster.

Enable Data Access

Search, analyze, and act on matter data without duplicating or moving data outside of Epiq software.

Ensure Security

Protect sensitive legal information using the same permissions that already exist for Epiq applications.

Increase Technology ROI

Access more value from existing technology investments through seamless integration.

Why Epiq Legal Solutions

Experience the advantage of solutions from a partner specializing in legal.

Drive decisions with AI solutions that combine people, process, technology, and data.

4 Connected

Epiq Applications

1 Governed

Experience

Your Preferred

AI Assistant

Differentiators

- Global support from Epiq experts with extensive AI and workflow experience.
- Support an technology-agnostic AI strategy.
- Unlock greater value from Epiq technology investments

Key Capabilities

Reduce manual effort using AI assistants to action tasks in legal platforms by entering natural language requests. Use Epiq MCP to connect AI assistants with:

Use the Epiq AI MCP connector: what document collections are in Test Project 1? Answer briefly.

Used Epiq AI Integration
Test Project 1 has 1 collection:

- Test --collection_1 (review type, 25 docs, created 2026-05-28)

Use the Epiq AI MCP connector: In Test Project 1, what do the documents say about Alaska? Answer briefly and cite source DOC_ID links if available.

Used Epiq AI Integration
One relevant document was found about Alaska:

- 1-000000001 - An email from August 3, 2018, from the U.S. Coast Guard 17th District Alaska, with the subject "Coast Guard searches for man overboard in Sitka Sound, Alaska". It is a news release from the 17th District Public Affairs Office regarding a search-and-rescue operation in Sitka Sound.

Write a message...

Epiq AI™

Accelerate fact research in legal and compliance matters.

Example requests

- “Who or what organizations are mentioned in connection with the Coast Guard?”
- “List all of the current document collections that I have access to.”

Provide a list of key custodians and what keywords, concepts, or communication patterns are driving those results

Used Epiq Discover MCP Integration
Three custodians are most closely connected to the potential misconduct.

Key custodians

- Jordan Blake -- approvals and offline discussions
- Morgan Lee -- missed invoices and with payments
- Taylor Reed -- meetings before disputed approvals

Keywords and concepts

- "Project North", "offline approval", "split invoice"
- Reused invoice descriptions across separate requests

Communication patterns

- Exchanges concentrated on the disputed approvals
- Repeated requests to move discussions to phone

Key custodians

- EMAIL_0001482 -- "Project North -- approval"
- DOC_0000177 -- "Revised payment request"
- DOC_0000155 -- "Project North invoice summary"

Write a message...

Epiq Discover™

Quickly access facts in eDiscovery projects.

Example requests

- “Identify connections between Mr. X and the identified misconduct.”
- “Generate a report of all active projects.”

Kevin Delgado pseudonym evidence in Frizzcorp v. Bubba? ⌵

It'd like to discuss the matter "Frizzcorp v. Bubba" (2025) in Epiq Narrate US. In the "First Exhibit" folder, is there any evidence discussing the use of pseudonyms by Kevin Delgado?

Used Epiq Narrate US Integration - 5 notes

Search document content
Let me run one keyword search to catch anything the vector search may have missed.

Search document content
Yes -- one exhibit in that folder directly addresses it.

PTX-010 -- 2022.06.12 Hotel Records [DUB0Z0112]
The Pinnacle Hotel records for the June 12, 2022 Denver stopover list Delgado's room reservation as having been made under the alias "Kyle Damper" (Room 302), and Emily Cho under the alias "Emma Carter" (Room 303). The same page recounts surveillance footage of Delgado entering the lobby with Dr. Crane, Cho joining them, both Delgado and Cho checking out early the next morning at 6:15 AM, and Delgado telling hotel staff that Crane had left by taxi -- a claim the record notes was unsupported by any Denver taxi records for Crane that morning.
