

Assure defensible, accurate, and timely compliance with production requirements on high-profile antitrust matters.

Meet aggressive deadlines for compliance with government and adverse party requests using AI to accelerate data analysis, review, and privilege log creation.

Ensure defensibility and reduce risk with transparent metrics and government-accepted AI designed for antitrust matters.

Merger Reviews

Meet substantial compliance requirements with speed and precision.

- Analyze key issues using Epiq Assist™ to query the dataset and receive instant answers.
- Meet request deadlines using Epiq AI to automate document classification, privilege review, and log creation.

Government and Internal Investigations

Quickly surface critical data to inform case strategy and negotiations.

- Make informed decisions using Epiq Assist to quickly uncover potentially illegal conduct or competition issues.

Litigation Matters

Strengthen case strategy and speed production.

- Identify key data early using Epiq Assist to interrogate the dataset.
- Accelerate document classification, privilege review, and log creation.
- Gain a strategic advantage in preparing for depositions, witness statements, hearings, and trial using Epiq Assist to generate timelines, witness fact sheets, and summaries of key information.

Hart-Scott-Rodino [HSR] Premerger Filings

Accelerate disclosure of 4(c) and 4(d) documents.

- Identify and prioritize business documents for 4(c) and 4(d) responses, including competitive overlap, deal rationale, and Board reports, using Epiq Assist for data interrogation.
- Save time with an AI prompt library developed for HSR filings. Save time with an AI prompt library developed for HSR filings.

Why Epiq Legal Solutions

Experience the advantage of solutions from a partner specializing in legal.

Drive decisions with AI solutions that combine people, process, technology, and data.

Work with the most experienced and successful antitrust and government investigation team servicing the global market in mergers, investigations, and litigations.

Enhance decision-making, reduce risk, and increase productivity using Epiq Assist, Epiq AI™ for Review, and Epiq AI™ for Privilege in the Epiq Service Cloud.

Epiq Assist

Enhance data analysis using conversational AI.

Please provide a summary of the top five lobbying activities in a numbered list.

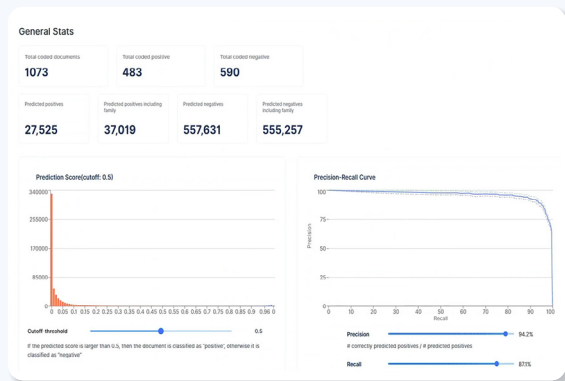

Q AI Assistant 3 minutes ago
The provided documents do not contain specific details about the top five lobbying activities. The documents primarily discuss the process of completing lobbying questionnaires and tracking lobbying expenses, but they do not provide detailed descriptions of specific lobbying activities or initiatives. Here is a summary of the relevant content:

1. **Lobbying Questionnaires:** Enron employees were required to complete questionnaires detailing their time spent on lobbying activities for the year 2000 and 2001. These questionnaires were part of the company's efforts to track lobbying activities and expenses [1](#) [2](#) [3](#) [4](#) [5](#) [6](#) [7](#) [8](#) [9](#) [10](#) [11](#) [22](#) [23](#) .

- Ask natural language questions about the data and receive instant answers linked to source documents.
- Enter limitless prompts without incurring extra charges.
- Conduct analysis at any time on all or part of the dataset.
- Automatically generate event timelines and witness fact sheets.
- Submit requests and get responses in your desired language.

Epiq AI for Review

Increase review accuracy and speed by automating document classification.

- Classify documents for unlimited issue tags, relevance, personally identifiable information (PII), and privilege.
- Rerun classification without additional fees.
- Use with technology assisted review (TAR) or continuous active learning (CAL) to reduce lawyer review up to 90%.
- Classify documents in any language.

Epiq AI for Privilege

Accelerate privilege review and log creation.
