## We produce custom loan audits in accordance with your business rules to reduce cost and mitigate risk without sacrificing quality

**Problem:** Processes and resources used to evaluate loan onboarding, payments reconciliation, remediating non-compliance and backlog, and monthly maintenance audits is costly and time consuming.

**Solution:** AACER® Loan Audit Services pairs expert bankruptcy and financial analysts with proprietary data mapping and automation technology to deliver cost and risk reductions.

### What we offer

- Comprehensive audits for Ch. 7, 11 and 13, including full audits, Motion for Relief, Agreed Orders and Payment Change Notices and from petition date to discharge, dismissal or relief granted
- Full review of all attorney fees, charges and expenses, including servicing fees
- Multiple levels of quality control
- Web services extractions from MSP®, FISERV and others available
- Trustee payment history for all listed claims, integration with National Data Center
- Complete payment history ledger for Proof of Claims, Motion for Relief and Notice of Final Cure filings, including prior loan servicer history, if available
- Audit summaries with recommendations for remediation, including custom reports applying rules for jurisdictional nuances
- Custom output for client internal processes and for state-specific Proof of Claims, Motion for Relief, Payment Change Notices, and Post Petition Fee Notice requirements
- Dockets and claims summaries, including a hyperlink to documents automatically extracted from PACER
- Web services to interact with clients' other systems
- Online presentation of results with workflow features
