

Build, validate, and present stronger case narratives from discovery through trial.

Accelerate case preparation in a centralized, cloud-based platform that connects evidence, testimony, facts, and insights. Build stronger case narratives using AI to quickly analyze documents and transcripts, validate findings, and uncover supporting evidence.

Build the Case Story

- Navigate your case intuitively with a story view that replaces folders with people, places, issues, and events, connecting facts to evidence.
- Identify, track, and link facts from documents, multimedia, and transcripts to build a coherent narrative.

Accelerate Case Insights

- Use AI transcript analysis to extract and connect facts, people, and events from testimony.
- Ask questions using AI chat and validate responses with links to source documents.
- Incorporate facts, entities, and relationships identified by Epiq AI™ in discovery.

Streamline Evidence Management

- Copy linked evidence to working folders, witness binders, or trial exhibit binders and generate ready-to-file exhibit lists.
- Surface supporting evidence and contradictions by selecting relevant testimony.

Make Impactful Presentations at Hearings and Trial

- Automatically display exhibits on each participant's screen using built-in presentation capabilities.
- Deliver persuasive presentations with markup tools, including callouts, highlighting, laser pointers, and freehand drawing.

Why Epiq Legal Solutions

Experience the advantage of solutions from a partner specializing in legal.

Drive decisions with AI solutions that combine people, process, technology, and data.

24/7

Global support

Up to 25%

reduction in trial preparation time

Differentiators

- Move seamlessly from discovery to trial through integration with Epiq AI, Epiq Discover™, and Relativity.
- Leverage the expertise of dedicated staff who understand document handling, processing, and structure throughout the litigation lifecycle.
