

Turn present and hidden data into a clear record of past events

Use court-accepted forensic analysis tools and techniques to uncover intellectual property theft, harassment, fraud, or other misconduct.

- Endure court scrutiny by using standard industry tools and adhering to industry standards compliance.
- Base strategic decisions on an honest evaluation and a clear data interpretation.
- Gain forensic data consultants for your case with proven track records as court-qualified specialists.
- Find evidence of civil internal disputes, product liability issues, and altered or forged emails, documents, or PDFs.
- Explain findings through written or live testimony that withstands scrutiny and cross-examination.

Discover	Uncover	Analyze
Look for evidence within laptops, mobile devices, servers, and cloud storage.	Uncover data markers such as file changes, external drive usage, emails or texts sent to personal accounts, and registry entries.	Reconstruct the timeline and context of events using forensic evidence such as user or system activity, metadata, and more.

Why Epiq Legal Solutions

Experience the advantage of solutions from a partner specializing in legal.

Drive decisions with AI solutions that combine people, process, technology, and data.

Uncover Hidden Data

Detect Hidden Misconduct

Reconstruct Timelines

Differentiators
