

Identify and implement process improvements for defensible legal hold and preservation, including automation.

Partner with professionals to develop a defensible legal hold and preservation process with a full assessment, implementation, and ongoing support.

- Keep engagements on schedule and on budget with designated project management resources.
- Reduce the burden on compliance, IT, and legal departments with expert-led technology implementation.
- Ensure legal hold compliance using technology instead of manual processes.

Legal Hold and Preservation Assessment

Mitigate risk by identifying discrepancies between leading legal hold methodologies and the system of record.

Third-Party Software Implementation

Ensure data preservation and legal hold compliance with third-party software like Microsoft, Relativity, and Exterro.

Legal Hold and Preservation Migration

Improve data preservation and compliance continuity by migrating existing legal holds to newer platforms.

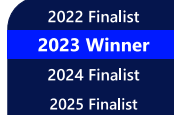

Preservation Automation

Save time and improve accuracy and quality control with custom legal hold and preservation process automation.

Why Epiq Legal Solutions
