

Meet client and professional confidentiality requirements and adopt AI securely.

- Implement and expand Intapp Walls to protect sensitive client and internal data, automate compliance workflows, and improve productivity.
- Comply with professional rules, regulatory requirements, outside counsel guidelines (OCGs), and evolving AI risk management challenges.
- Automate the confidentiality lifecycle to streamline processes and reduce operational risk.
- Configure flexible security frameworks tailored to your environment and access models.
- Access best practices for policy, process, staff training, and ongoing maintenance.
- Maintain success with responsive managed services and continuous system enhancements.

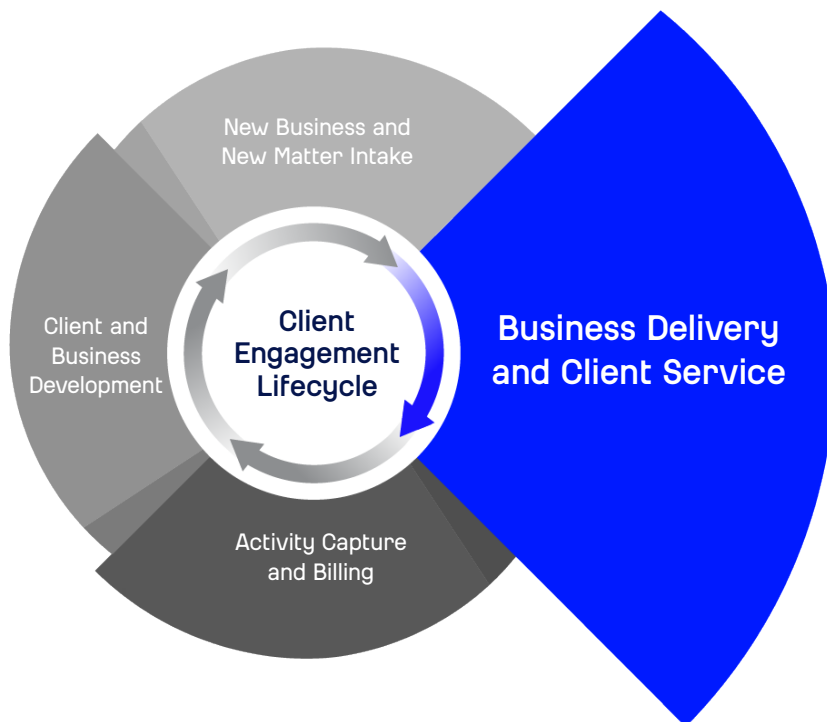

Why Epiq Legal Solutions

Experience the advantage of solutions from a partner specializing in legal.

Drive decisions with AI solutions that combine people, process, technology, and data.

Over **600** successful Walls projects more than any other provider

Intapp Terms

Capture, communicate, and ensure compliance with client OCGs.

Intapp Collaboration

Add structure and governance to SharePoint and Microsoft Teams.

Intapp Walls

Comply with client and professional confidentiality requirements.
Enable safe and secure AI adoption.

Unique Support for Intapp Walls Software and Consulting Projects

Assessment	Analyze firm policies, processes, data integrity, and system integration needs to identify confidentiality gaps.
Training	Provide best-practice instruction training, including ethical screens, client confidentiality, regulatory-driven access controls (e.g., HIPAA, ITAR, insider trading risk, data privacy, and cybersecurity laws).
Integration	Extend security to additional applications through custom API connections.
Access Models	Configure universal “members-only” restrictions and other internal security frameworks.
Cloud Readiness	Evaluate infrastructure and prepare systems for a smooth migration to the cloud.
Managed Services	Deliver ongoing support with health checks, interactive reviews, and continuous improvements.

Custom extensions and integrations with:

Intapp Time Delivers unique exclusionary security enforcement capabilities.	Intapp Intake and Conflicts Integrates wall creation into the matter opening workflow.	Intapp DealCloud Leverages client relationship management [CRM] and client data integrations for enhanced security alignment.
