

Implement and enhance Intapp solutions to achieve business and operational objectives.

- Get the greatest possible return on your Intapp investments.
- Implement new Intapp products, or migrate existing solutions to the cloud, on time and on budget.
- Streamline the client lifecycle from engagement through billing using proven expertise and actionable insights.
- Leverage AI, enhance data integration, and automate workflows for more efficient administration and to capture greater revenue.

Why Epiq Legal Solutions

Experience the advantage of solutions from a partner specializing in legal.

Drive decisions with AI solutions that combine people, process, technology, and data.

Over **1000** successful Intapp projects executed

Enhanced support for Intapp Intake, Conflicts, Terms, Walls, Time, Billstream, DealCloud, Workspaces, and Collaboration

Streamline new business acceptance, meet professional obligations, and ensure compliance with client guidelines.

Control access to sensitive client information and build a data governance foundation to support AI adoption and modern work initiatives.

Modernize lawyer timekeeping by automating activity capture and simplifying prebill creation and approval.

Improve firm-wide collaboration and productivity using Microsoft Teams for matter-centric governance and workflow.

Prepare for cloud migration with system, data, and business reviews, staged migration options, and clear timelines.

Differentiators

- Specialists in cloud migration assessment and planning services.
- Our team includes former Intapp product leaders, law firm operations managers, technology, business process, and subject matter experts.
- Unique solution options, including product add-ons and proprietary cloud migration tools.
- Risk consulting to improve productivity and keep up with industry and peer best practices.
- Deliver ongoing managed service product support, enhancements, and training after go-live.
