

Advance legal work by unifying AI, legal systems, and data.

Work seamlessly across legal data, applications, and workflows by connecting preferred AI assistants with Epiq applications through the Epiq Model Context Protocol [MCP]. Accelerate tasks while preserving data governance, oversight, and control that sensitive legal information requires.

Increase Productivity

Link AI assistants with Epiq Discover™, Epiq AI™, Epiq Narrate™, and Epiq Access, allowing legal professionals to surface facts, documents, and case details faster.

Enable Data Access

Search, analyse, and act on matter data without duplicating or moving data outside of Epiq software.

Ensure Security

Protect sensitive legal information using the same permissions that already exist for Epiq applications.

Increase Technology ROI

Access more value from existing technology investments through seamless integration.

Why Epiq Legal Solutions

Experience the advantage of solutions from a partner specialising in legal.

Drive decisions with AI solutions that combine people, process, technology, and data.

Experience

Your Preferred

AI Assistant

Differentiators

- Global support from Epiq experts with extensive AI and workflow experience.
- Support an technology-agnostic AI strategy.
- Unlock greater value from Epiq technology investments

Key Capabilities

Reduce manual effort using AI assistants to action tasks in legal platforms by entering natural language requests. Use Epiq MCP to connect AI assistants with:

Epiq AI™

Accelerate fact research in legal and compliance matters.

Example requests

“Who or what organisations are mentioned in connection with the Coast Guard?”

“List all of the current document collections that I have access to.”

Epiq Discover™

Quickly access facts in eDiscovery projects.

Example requests

“Identify connections between Mr. X and the identified misconduct.”

“Generate a report of all active projects.”

Epiq Narrate™

Expedite legal case preparation.

Example requests

“Create a chronological outline of the most important events related to X.”

“Identify any evidence discussing the use of pseudonyms by Kevin Delgado.”

Epiq Access

Manage legal operations using key project metrics.

Example requests

“Approve request 1234 and show my team’s open work requests.”

“List my billing reports.”
