Epiq Managed Services

# Optimise your discovery programme with access to experts, proven processes, technology, AI, and services, all at a predictable monthly cost.

Empower your team with eDiscovery backed by data security, defensible workflows, analytics, direct administrative capabilities, business intelligence reports, and cost predictability.

- Stabilise discovery costs with predictable monthly billing for a set capacity of hosting, users, and other services during your three-year contract.
- Find data early in the discovery process, accelerate review, and identify privileged and confidential business content with unlimited AI access.
- Add AI to your workflows for evidence interrogation, text summarisation, native file translation, audio and video transcription, premium optical character recognition (OCR), image narration, and video analysis.
- Fund your capabilities with a cost recovery or cost allocation programme.
- Make informed decisions with reporting that provides insights into your data, your business, and key performance indicators (KPIs).
- Securely access applications and reporting through single sign-on (SSO) and the Epiq Service Cloud.
