## Respond to all types of DSARs with minimal impact on business operations.

Meet DSAR fulfilment deadlines and reduce operational burden with flexible solutions using technology, information governance strategies, document review services, specialised talent, and expert workflows.

Forecast DSAR costs and choice of operating models with self-managed solutions for smaller request volumes or tiered pricing models for larger full-service data processing, hosting, and storage requests.

Leverage specialist flexible legal talent and advisory expertise to deploy proven DSAR workflows into your current technology and process.

Enable non-technical teams to source historical data across enterprise systems.

Manage Varying DSAR Scenarios

Employment Matters

Consumer Requests

Cyber Incident Related Requests

Improve response time with automated workflows for high-volume or repeatable requests.

Accelerate disclosure of impacted data with expert-led DSAR workflows.

50%
Faster data collection

Flexible Operating Models

Save time and costs with pricing and operating models tailored to DSAR volume and complexity.

Self-Service Tools

Reduce reliance on law firms with Epiq Discover™ for non-technical users to manage inbound DSARs.

— Streamline DSAR processing with technology that targets requestor-relevant data.

— Achieve fulfillment with repeatable workflows.

— Minimise IT disruption with automated data ingestion and preservation.

— Defensibly comply with GDPR using AI that simplifies productions.

Managed Review Service

Lighten internal workload by outsourcing DSAR fulfilment to experienced professionals.

— Minimise risk exposure with expert DSAR triage and advisory.

— Leverage proven processes for data sourcing, redaction, and delivery to requestors.

— Streamline review by narrowing documents and applying redactions with AI.

— Support response obligations and readiness with scalable data governance.

Workflow Advisory

Improve fulfilment capability through expert guidance on DSAR workflow design, escalation handling, and troubleshooting.

— Reduce fulfilment strain with experts in DSAR workflows and operations.

— Enhance response capabilities by integrating ERP, CRM, and OneDrive into DSAR workflows.

— Augment DSAR legal talent for advice on communications redactions, and risk.

— Ensure defensible results using AI that picks the effective model for each task.

Epiq Differentiators

— Onboard team members within hours with user-friendly interfaces.

— Control processing and hosting costs by transitioning between RelativityOne and Epiq Discover, leveraging each platform where it delivers the most value.

— Stabilise DSAR costs with predictable monthly pricing.

— Process data two to five times faster using Epiq Discover.

— Over 90% of our flexible legal talent professionals practised in-house.

DSARs are a legislated right, but don't let it cost your business operations.
