

Ensure your document and knowledge systems meet current and future legal demands.

Transform document management into a competitive advantage with technology that delivers instant access to information and eliminates costly risks.

- Deploy AI search systems to reduce time spent locating documents.
- Implement cloud-based security to protect sensitive client data from breaches and privilege violations.
- Use collaborative platforms to avoid version conflicts, streamline contracts negotiations, and avoid missed deadlines.
- Automate records and audit trails to meet court, regulator, and client requirements.
- Streamline IT operations by moving critical infrastructure to the cloud.

Vendor-neutral guidance tailored to each client's needs.

Why Epiq Legal Solutions?

Experience the advantage of solutions from a partner specialising in legal.

Drive decisions with AI solutions that combine people, process, technology, and data.

Epiq Differentiators

- Full spectrum support for both on-prem and cloud environments.
- Insight into legal operations and lawyer pain points, informed by thousands of client interviews and surveys.
- Benefit from tailored solutions that support your operational goals, designed by a team with knowledge management and legal workflow experience.
- Proven methods, expert consultants, and a structured approach that prioritizes efficiency and client service.
