

Surface compliance risks in employee communications to support timely action.

Analyze employee communications in real time to surface and prioritize compliance risks, including antitrust, anti-bribery and corruption, labor and employment, and more.

Act On Risk Faster

Analyze 100% of employee communications in real time and surface high-risk messaging with AI that evaluates meaning and intent, not just keywords.

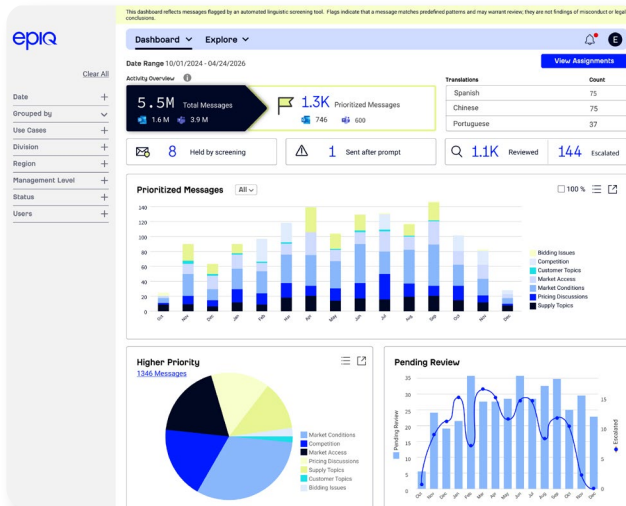

Prioritize Risk Review

Deliver high accuracy with minimal false positives through AI analysis that monitors risk trends and enables teams to focus on the highest-risk communications.

Why Epiq Legal Solutions

Experience the advantage of solutions from a partner specializing in legal.

Drive decisions with AI solutions that combine people, process, technology, and data.

Leverage AI that understands **context and intent.**

Support over **75 languages.**

Differentiators

- Identify risk with greater accuracy and fewer false positives using patented AI models purpose-built for antitrust, anti-bribery and corruption, labor and employment, and more.
- Streamline investigations with integrated workflows that connect risk identification directly to review, escalation, and action.
- Deploy globally with configurable models and support for complex organizational structures, roles, and languages.

Global Snacks Manufacturer Implements Antitrust Risk Prevention at Scale
