

Epiq uses Everlaw to support Australian firm HWL Ebsworth with technology-assisted review

client	HWL Ebsworth (HWLE), an Australian commercial law firm
location	Asia Pacific
client need	<p>Navigate the eDiscovery challenges of voluminous technical IT data collected over extended periods of time</p> <p>HWLE needed to outsource critical elements of its eDiscovery process for a major Asia-Pacific client within the information technology industry.</p>
why Epiq?	Through its experience and leadership in eDiscovery, in addition to a close relationship with technology partner Everlaw, Epiq was able to give HWLE access to advanced technology that could easily support their needs.
Epiq solution	<p>AI-powered review, with early case assessment (ECA) and continuous active learning (CAL)</p> <p>Epiq utilized Everlaw's search technology to support working with opposing parties on a real-time early case assessment. This involved identifying the population for an agreed continuous active learning protocol developed in collaboration with HWLE's legal team. The Epiq team:</p> <ul style="list-style-type: none"> • Facilitated the data collection from HWLE's global client • Designed HWLE's eDiscovery workflow and training procedures using Everlaw • Assisted HWLE to negotiate a robust search and TAR protocol with opposing parties • Negotiated over 1,000 search terms in real-time with HWLE and opposing parties during the initial ECA phase • Helped the court understand the process and provide an estimate on cost and duration of the discovery effort
