

Use AI to streamline legal and administrative functions and gain a competitive edge.

Transform knowledge and legal operations with AI that accelerates, augments, and automates the daily work of legal professionals.

- Deliver more value to clients with best-fit AI tools, processes, and capabilities.
- Take a strategic approach, avoid fragmented and inconsistent standalone deployments.
- Automate non-billable tasks and compress timelines, from large cross-firm initiatives to matter-specific projects, reducing duration from months to hours.
- Expand AI use beyond basic applications into research, drafting, summarization, billing, financial analysis, and client relationships.
- Create a multi-year roadmap to maximize current AI investments and plan adoption firmwide.

Assessment and Foundation

Evaluate infrastructure, workflows, data quality, and staff readiness to establish a solid foundation for AI integration.

Implementation
