

Connect and streamline practice and experience data for powerful insights.

Transform client, matter, and people data into measurable results by analyzing data, replacing outdated tools, and making data-driven decisions.

Program Expansion

Extend the impact of existing experience management programs by unlocking new use cases and delivering greater business value.

Process and Workflow

Streamline processes and workflows by identifying bottlenecks and reallocating resources using real-time performance analytics.

Expertise Alignment

Use data to align expertise with client needs, improve resource planning, and guide strategic decisions on hiring, training, and market positioning.

Roadmap Definition

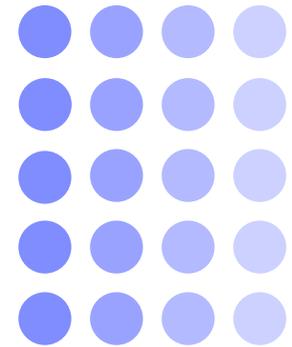

Clarify goals, prioritize high-impact use cases, and build a roadmap that drives early progress and long-term results.

Knowledge and Collaboration

Define firm data to support collaboration, surface expertise, and improve operational efficiency.

Measurable Deliverables and Outcomes

Use tracking and reporting systems to deliver outcomes that clearly demonstrate ROI and show meaningful business impact.

Why Epiq Legal Solutions?

Experience the advantage of solutions from a partner specializing in legal.

Drive decisions with AI solutions that combine people, process, technology, and data.

Flexible methodology built on proven practices that avoids one-size-fits-all approaches.

Epiq Differentiators

- Extensive expertise and thought leadership in experience management recognized by industry leaders.
- Brings together in-house law firm experience and specialized knowledge in data modernization and change leadership to deliver expert guidance and lasting impact.
- Experienced advisors who partner with clients to design multi-year roadmaps that deliver immediate value and measurable ROI.

Winthrop & Weinstine Transform Their Firm Intelligence by Leveraging People, Process, and Technology
