

## Accelerate case building, depositions, trial preparation, and presentation.

Facilitate case preparation with a platform for creating, managing, and sharing case narratives and electronic bundles for legal proceedings. Organize documents and evidence in a cloud-based tool to streamline preparation and presentation of exhibits, designations, and objections at depositions, hearings, arbitrations, and trial.

### Build the Case Story

- Navigate your case intuitively with a story view that replaces folders with people, places, issues, and events, and connects facts to evidence.
- Strengthen case strategy by identifying, tracking, and linking facts from documents, multimedia, and transcripts to build a coherent narrative.

### Analyze Testimony

- Accelerate case building with AI Transcript Analysis that extracts and links facts, people, and events from transcripts.
- Surface contradictions and supporting evidence instantly by selecting testimony to reveal linked or conflicting materials.

### Streamline Evidence Management

- Copy linked evidence to working folders, witness binders, or trial exhibit binders and generate ready-to-file exhibit lists.
- Organize and manage evidence more efficiently with automatic hyperlinking, tagging, pagination, and binder generation.

### Present at Hearings and Trial

- Present exhibits seamlessly by automatically displaying documents on each participant's screen using built-in presentation capabilities.
- Deliver persuasive presentations with markup tools, including callouts, highlighting, laser pointers, and freehand drawing.
