

Simplify, accelerate, and reduce the cost of evidence discovery.

Preserve, analyze, and review large volumes of data with an AI-enhanced platform that reduces time to resolution for legal, compliance, and investigative matters. Keep data in a single, secure location and apply embedded AI capabilities, including Epiq Chat for natural language queries, text summarization, translation, transcription, and PII detection.

Corporations	Law Firms	Government Entities
Reduce reliance on external legal resources with an easy-to-use discovery tool for managing and analyzing large data volumes.	Facilitate collaboration between your law firm, suppliers, and clients with workflow and information-sharing capabilities.	Tackle records backlogs and public records requests using a wizard-driven production tool for reporting, tracking, and sharing.
Interact with Epiq Chat to extract key facts from documents using natural language queries with supporting citations.	Use Epiq Chat to accelerate case preparation by uncovering facts, building timelines, and identifying key statements.	Protect privileged information with top-grade security and automated redaction tools.
Quickly understand risk exposure with AI-driven text summarization and early data assessment.	Extract and highlight key information for negotiations, depositions, and court proceedings utilizing AI-driven document summarization.	Secure your defense related data with a solution that meets ITAR's stringent standards.

2 to 5
times faster processing

Why Epiq Legal Solutions?

Experience the advantage of solutions from a partner specializing in legal and compliance.

Drive decisions with AI-enabled solutions that combine people, process, technology, and data.

50%
