

Elevate your practice with conversational AI designed for data scale and complexity.

Achieve faster, better outcomes with AI that uses a persistent knowledge layer to uncover hidden players, facts, events, and connections in large datasets and generate work product.

Early Resolution

Gain a factual understanding of your matter or investigation at the outset.

Improved Work Product

Spend less time creating clean, insightful, and impactful work product.

Enhanced Deposition Preparation

Secure a strategic advantage with fast access to deeper insights.

Expanded Knowledge

Continuously synthesize new knowledge as issues, documents, and testimony evolve.

Epiq Assist

Why Epiq Legal Solutions?

Experience the advantage of solutions from a partner specializing in legal.

Drive decisions with AI solutions that combine people, process, technology, and data.

Data hosted in Epiq Discover™, Relativity Server, or RelativityOne.

Receive instant answers linked to source documents.

Interrogate all or part of a dataset.

Enter limitless requests without incurring extra charges.

Conduct research up to 45x faster than doing so manually.

Epiq Differentiators

- Access through the Epiq Service Cloud, a fully managed private cloud designed to meet the security and compliance standards that legal requires.
- Eliminate boundaries by asking questions and getting answers across data stored in over 50 languages.
- Ask questions across your entire dataset without first filtering data into smaller batches.
- Avoid missed details with a knowledge layer that gathers factual intelligence and applies logic to identify deeper insights.

Identify new insights faster, make stronger decisions, and generate work product in near real-time.

Please provide a summary of the top five lobbying activities in a numbered list.

AI Assistant 3 minutes ago
The provided documents do not contain specific details about the top five lobbying activities. The documents primarily discuss the process of completing lobbying questionnaires and tracking lobbying expenses, but they do not provide detailed descriptions of specific lobbying activities or initiatives. Here is a summary of the relevant content:

1. **Lobbying Questionnaires:** Enron employees were required to complete questionnaires detailing their time spent on lobbying activities for the year 2000 and 2001. These questionnaires were part of the company's efforts to track lobbying activities and expenses [1](#) [2](#) [3](#) [4](#) [5](#) [6](#) [7](#) [8](#) [9](#) [10](#) [11](#) [22](#) [23](#) .

2. **Clarification on Lobbying Questionnaires:** There was confusion regarding the need to report expenses versus time allocation for lobbying activities. Employees were instructed to allocate their time spent on lobbying rather than gathering expense details [2](#) [9](#) [18](#) .

Analyze data with natural language requests.

- Interrogate data at any time with no delay.
- Verify answers with annotations and links to key documents.
- Enter requests and get responses in your desired language.

Instant Answers

Generate timelines of complex data.

- Analyze any series of events or communications.
- Define the timeline scope in the request.

Witness Factsheet: [Ken Lay](#)

Personal and Professional Background

Ken Lay was a prominent figure in the energy sector, serving as the CEO of Enron Corporation. His leadership role placed him at the center of Enron's business strategies and operations, particularly as the company expanded its reach into new markets globally, including significant investments in India and Japan [28](#) [36](#) .

Connection to Events

Ken Lay was directly involved in the strategic direction and public representation of Enron. He was invited to testify at a Senate Energy and Natural Resources Committee hearing regarding the California energy crisis, highlighting his role in addressing critical issues related to energy markets and deregulation [11](#) [12](#) . His testimony was sought to provide insights into Enron's perspective on market operations, risk management, and the importance of open access to electricity transmission [12](#) [13](#) .

Key Statements and Actions

Ken Lay was involved in high-level discussions and presentations, as evidenced by his participation in preparing for significant meetings and hearings. For instance, he was scheduled to meet with Chancellor Reed, indicating his involvement in discussions with educational and governmental institutions [54](#) [58](#) . Additionally, he was responsible for
