

Uncover evidence as you defensibly collect, analyze, and preserve data to meet investigative and litigation needs.

Meet global data needs with scalable expertise and tailored methods, from small projects to embedded teams.

## Forensic Data Collection

Defensibly collect data—including from mobile devices, cloud storage, and other sources—for internal investigations and litigation.

## Mobile Device Collection

Gather data from mobile devices selectively or comprehensively across various custodian categories.

## Forensic Analysis and Testimony

Analyze data and testify to past events by reconstructing both visible and hidden data artifacts.

## Forensic Managed Services

Professionally meet ongoing forensic collection demands with an embedded team that understands your IT infrastructure.

## Why Epiq Legal Solutions?

Experience the advantage of solutions from a partner specializing in legal.

Drive decisions with AI-enabled solutions that combine people, process, technology, and data.

## Our Experts Are Certified by Industry-Leading Organizations

ACS Institute	AAFS	Axiom	Cellebrite	CIFI	CompTIA
