

AI Enablement for Corporate Legal Departments

Uncover opportunities to improve legal department efficiency and lower costs with AI.

- Accelerate AI adoption with a structured approach that identifies opportunities, mitigates risks, and ensures a rapid transition from pilot to full-scale implementation.
- Set clear goals for AI integration to deliver benefits across the legal department, enhancing user experience and efficiency.

Why Epiq Legal Solutions?

Experience the advantage of solutions from a partner specializing in legal and compliance.

Drive decisions with AI solutions that combine people, process, technology, and data.

Readiness Workshop

- Identify and prioritize AI opportunities to pursue with external and internal partners.
- Surface key dependencies, such as data security and compliance needs, securing the appropriate resources and ensuring cross-functional engagement.

Roadmap Development

- Undertake an assessment of current capabilities to identify potential needs, risks, and gaps.
- Define use cases to meet uncovered needs and align with business and C-suite AI initiatives.

Program Management

- Build skills in AI implementation to oversee the testing and tuning of AI applications to meet your department's needs.
- Amplify the benefits of investments in AI by using an iterative development methodology to deliver greater ROI.

Leverage experience from **300** consulting engagements.

Epiq Differentiators

- Set up a successful AI integration confidently with a fixed-fee engagement.
- Collaborate with experts who are service provider-agnostic on a full spectrum of technology options.

Leveraging AI and Automation to Drive Stakeholder Value
